

Northwest Rural Public Power District
Hay Springs, Nebraska

SCHEDULE SINGLE PHASE IRRG - 17

Availability

Available to all single phase irrigation loads except, as another approved rate may be applicable, and subject to the established rules and regulations of the District covering these types of services.

Types of Service

Single phase, at available secondary voltages. Services requiring line extension see Policy 0-11. For motor sizing see General Conditions Policy 0-9.

Rate SINGLE PHASE IRRG-KW-17

Access Fee:	Per measured KW / Yearly	\$20.00
Demand Charge:	Per measured KW / Monthly/April thru October	\$16.50
Energy Charge:	All Kilowatt-hours	\$0.0600

Minimum Charge

1. The minimum annual Access Fee under the above rates shall be the amount indicated below.

Rate SINGLE PHASE IRRG-KW-17 \$20.00 per highest measured KW (annual)

Determination KW

The District shall determine the KW by:

1. Installing a KW Demand meter.
 - a. Actual measured readings for monthly demands.
 - b. High actual measured demand of last year for access fee.
2. New services or changes in load or rate type.
 - a. An estimate, which may be based in part on the well drillers estimate plus other loads.
 - b. Estimates of access fee shall be adjusted to the current year's high after history has been established.
3. Access fee shall be pro-rated when changes occur within the irrigation season.

Power Factor Adjustment

The consumer agrees to maintain unity power factor as nearly as practical on new services or services significantly changed after May 27, 1983 on all motors ten (10) horsepower or greater. Demand charges may be adjusted, for consumers with (8) KW or more of measured demand, to compensate for average power factors lower than 95% lagging. Adjustments will be made by increasing the measured demand portion by 1% for each 1% that the average power factor is less than 95% lagging.

Terms of Payment

1. Bills for service hereunder shall be paid at the office of the District in Hay Springs, Nebraska. The annual Access Fee shall be billed yearly in the spring. Monthly demand billings will occur during the billing months of April through October (the Irrigation Season).

The winter usages are for the billing months of November through March. All Kwh that occur during the winter months will be billed after the spring meter reading, that occurs at approximately the 1st of April.

1. Approximately June 1 means the May meter reading date.

SINGLE PHASE IRRG-KW-17 - Annual access fee is delinquent by date stated on billing statement.

- a. Demand and kWh charges are due approximately the 20th of the following month.
 - b. Delinquent approximately the 25th of the following month.
2. Identified months – mean from meter reading to meter reading and thereby establishing billing months.
3. Upon re-connection for delinquent payments, the consumer will pay the delinquent bill plus one month average bill for deposit before service can be restored.
4. The above rates are net, the gross rate being 10 percent of net higher. In the event the current monthly bill is not paid by date of delinquency, the gross rate shall apply. Interest charges shall apply as established by District Policy.

Effective Date: January 1, 2017
Supersedes: May 26, 2016
